The image shows a screenshot of a Windows desktop environment. At the top, a window titled 'Form1' is open, displaying a custom 'CALCULATOR' application. The application has a light gray background and contains two input fields at the top, one with the number '5' and the other with '1'. Below these are several buttons arranged in a grid: a row with 'C', '1', '2', '3', and 'EMPTY'; a row with '4', '5', '6', '7', and '='; a row with '8', '9', '0', '3', and 'CLEAR'; and a final row with '+', '-', '*', '/', and 'END'. The taskbar at the bottom of the screen features a 'Start' button on the left, followed by icons for a folder, a printer, Internet Explorer, a blue square icon, a document icon, a 'Tally ERP9' application, Firefox, Google Chrome, a calendar icon, and a Microsoft Word document. On the right side of the taskbar, it says 'Desktop » EN', and the system clock shows '8:22 PM' and '23/06/2019'.
